

Loading Dataset

The screenshot displays the IBM Cognos Analytics with Watson web application interface. The browser's address bar shows the URL `ap2.ca.analytics.ibm.com/bi/?perspective=home`. The application's header includes the title "IBM Cognos Analytics with Watson", a notification for "1 item open", and a search bar. A left-hand navigation menu contains options: Home, New, Upload data, Content, Recent, and Manage. The main content area features a large hero section titled "Cognos Analytics with Watson." with a sub-header "ing a look at our introduction video, product tour and Getting". Below this, three primary workflow steps are presented in light blue boxes: "Prepare data" (described as using data modules to clean and connect data from multiple resources), "Exploration" (described as quickly finding unbiased answers by identifying trends in data with data exploration), and "Present data" (described as creating sophisticated, multi-page, multi-query dashboards, reports, or stories). The interface is viewed within a Windows environment, with the taskbar at the bottom showing the date and time as 7:43 PM on 11/1/2022.

Quick launch

Upload data

Upload or drag and drop spreadsheets, csv files, and other data sources.

Prepare data

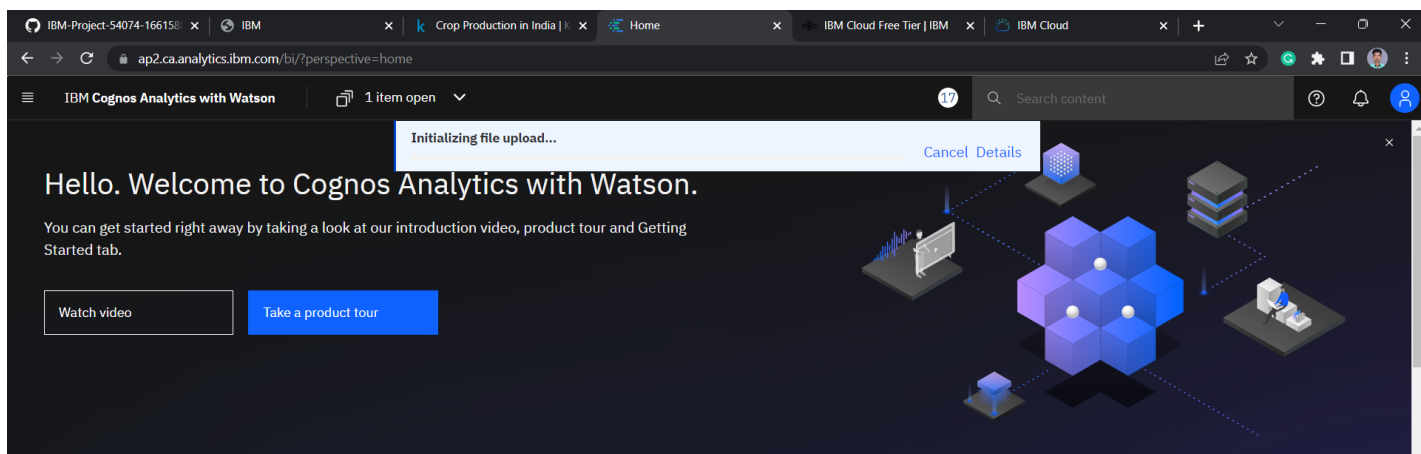

Use data modules to clean and connect data from multiple resources.

Exploration

Quickly find unbiased answers by identifying trends in your data with data exploration.

Present data

Create sophisticated, multi-page, multi-query dashboards, reports, or stories.
